

**THEY MAY BE  
THROW-AWAYS**

**BUT THERE'S NO NEED TO  
TREAT 'EM LIKE TRASH.**

# RECYCLE INSTEAD.

## LESS TRASH = LOWER COST

Introducing the Schupan Recycling **self-contained** mobile recycling unit with **75 recycling containers** for bottle and can collection, all the bags needed for your event and a hand truck to move the containers. **No need to buy or store any special recycling containers.**

It's so easy. Simply place the recycling containers in the appropriate spots next to your trash containers. Empty the recycling containers and replace bags as necessary during the event. At the end, put all of the containers and bags back into the trailer and lock it up. That's it!

Not enough staff to service the recycling containers? Schupan Recycling will work with local non-profit groups in your area to help your event meet its recycling goals.

**Schupan Recycling will deliver and pick up the trailer** at your event site and take care of all of the material processing at a very low cost.

In addition to our more than 25 years of experience in processing deposit containers in Michigan, Schupan has provided recycling expertise to Michigan State University sports events, NASCAR, Common Ground in Lansing and the Green Street Fair in Plymouth, as well as many smaller events.
