SCHOOL RECYCLING EDUCATION PROGRAM

Recycle Here! is working with the Detroit Public Schools recycling paper, plastic, metal, light-bulbs, Styrofoam and batteries, which is integrated into the science class curriculum. Recycle Here! works with each school's science teacher to identify on-site locations that will be used by the students to separate and store collected recyclables until the scheduled monthly pickup. Each participating science class is encouraged to create a "Green Team" which will collect and weigh their recyclables. Recycle Here! will supply schools with bins, assembly kickoff, poster, labels and facility tour to each participating school.
