

Throwing garden plastic into a landfill simply does not make sense. This summer May -July,PLP offers sustainable alternatives. Drop off your plastic at one of locations and we will recycle it for you!

We have great news. Northville, Ann Arbor and Plymouth have expanded curbside recycling to include your garden plastic! (**as long as plastic is clean and stamped with recycle triangle**) This means we are shifting our collection to communities not recycling curbside #5 and garden plastic. These communities are Livonia, Farmington, Farmington Hills, Novi and Walled lake. We will continue to collect trays, cells and unstamped plastic Northville and Canton on specific dates listed below.

Collectively we can make big gains for the environment! -Gina Adams-Levy
(PLP_Gina@me.com)
