

## Home Performance Technician - Oakland County, MI

**Join our team in helping change your community, the country, and the entire world!**

We are seeking energetic and customer oriented candidates who share our enthusiasm of changing the environment one home at a time. As a Home Performance Technician, you will help build relationships with homeowners in your area through direct interaction. At Inspired Green, we exist to serve our community by educating residents on how to live with a more energy efficient home through the use of green products and improvements. Our goal is to change people's lives by creating a safe, comfortable, and energy efficient home. Are you looking for a position that has upward mobility, freedom from a desk, and interaction with people? Do you have the skills to talk with customers in their home? If so, then this position is for you.
