

OLD SCHOOL

NEW SCHOOL

THE BETTER RECYCLING PROGRAM FOR SCHOOLS

Easy • Convenient • Economical

Here's how it works:

- 1. Rent our custom containers** at a very low cost, and place them in visible, convenient locations throughout your school.
- 2. Spread the word within your school** about your plastic (#1 PET) and aluminum beverage container recycling program. We can help you communicate the programs' value and how it works.
- 3. Remove each bag as it is filled**, tie it and place it in storage for regular pickup by our trucks.

We'll take it from there! Schupan has processing facilities where the material will be sorted, shredded and marketed for new use.

In addition to our more than 25 years of experience in processing billions of deposit containers yearly in Michigan, Schupan has provided recycling expertise to Michigan State University sports events, NASCAR, Common Ground in Lansing and the Green Street Fair in Plymouth.
