

# "GreeningDetroit.com Motown Theme Song"

CHORUS:

**Greening Detroit is on the move - wheeling and deal with the groove,  
If you want to get down, you got to be around, to be a part of this reality...**

**Greening Detroit is on the move - wheeling and deal with the groove,  
If you want to get down, you got to be around, to be a part of this reality...**

***There're holes throughout - the ozone, our time on earth is just about gone... If  
you want to get down - with your Greening part  
- then come to Detroit - and be a part...***

CHORUS:

**Greening Detroit is on the move - wheeling and deal with the groove,  
If you want to get down, you got to be around, to be a part of this reality...**

**Greening Detroit is on the move - wheeling and deal with the groove,  
If you want to get down, you got to be around, to be a part of this reality...**

***We must act now - to beat this sorrow, Greening Detroit - will produce a better  
tomorrow... If we don't act now - we're to blame, catastrophe - will be our fame***

CHORUS:

**Greening Detroit is on the move - wheeling and deal with the groove,  
If you want to get down, you got to be around, to be a part of this reality...**

**Greening Detroit is on the move - wheeling and deal with the groove,  
If you want to get down, you got to be around, to be a part of this reality...**
