FOCUS PLUS

PRODUCT DESCRIPTION:

Our brand new and improved Focus Plus formula contains powerful herbs like gotu kola to help you focus better for longer. The ingredients work in sync to support memory, clarity and concentration – without a caffeine crash.*

PRODUCT BENEFITS:

- Powerful formula with plant-derived, caffeine-free, drug-free alternatives to help you study, work or just increase focus on the task at hand*
- Supports normal mental performance and contributes to the reduction of tiredness and fatigue*
- Formulated with Phosphatidylserine, a vegan source of memory & learning function support*
- Supports mental sharpness and acuity*
- 2x the ginkgo biloba, 3x the bacopa monniera and 1.5x the gotu kola
- New and improved formula

POSITIONING STATEMENT:

Where did you just put your keys? What was that password again? Did I pay that bill already?

It's all too familiar. We all struggle with memory as we age, and multitasking has forced our ability to focus out the window. Fighting to stay on task and keep our ducks in a row means we're left in an occasional state of sluggishness and mental fatigue.

We designed Focus Plus with these problems in mind, so to speak. Our formula combines the most highly touted brain-boosting herbals to help you focus and stay on task.* Ginkgo, bacopa, and gotu kola help bring your mind on target so you can be effective.

Take Focus Plus to support concentration, keep your memory keener and live clean.

DIRECTIONS/USAGE:

Take two (2) capsules daily, one in the morning and one in the evening.

HEALTH AND WELLNESS | PERFORM
