# JAC LED Lighting

JAC LED Lighting is a nationwide Wholesale Distributor and furnish and install LED lighting and fixture company. We do retrofit and new construction lighting for commercial, industrial, infrastructure, manufacturing, retail, municipalities, agriculture, medical, and residential. We work with maintenance teams to supply all LED lighting requirements for building operations or we can take over all lighting maintenance requirements for clients.

Efficiency and cost for LED lighting has improved greatly and as clients look for more energy efficient and cost saving measures to improve capital savings, JAC LED Lighting provides a FREE energy analysis that lets us show you the way to environmental sustainability!

## Sample Project

- 95,000sqft Aero Space Manufacturing plant
- 60% annual kwh saved culminating into an annual dollar savings of \$76,344 per year
- 25% of project cost paid by energy supplier
- 1.17-year Return On Investment (ROI)
- 10-year material and labor warranty based on 24hrs/day use
- \$674,118 saved over the life of the warranty
